

we're just around the corner

Ask your physician about MSNImaging's services. For more information about our procedures or staff, feel free to call us. MSNImaging accepts most major health insurance plans. If you have questions concerning your coverage, don't hesitate to call for clarification.

MSNImaging Center
4330 West 150th Street
Cleveland, Ohio 44135
216-688-8000
Fax 216-688-0075
www.msning.com

The MSNImaging Center is conveniently located in an easily accessible area of Cleveland's West Side, just off of I-71's West 150th Street exit.

DIRECTIONS

From I-71, take the West 150th Street exit. Turn South onto West 150th St. (a right turn from both the North and South). The MSNImaging Center will be on the right.

HOURS

The MSNImaging Center is open Monday through Friday from 8:30 a.m. to 5:00 p.m. Evening and Saturday hours available by appointment.

Radiologists on-site daily.

Innovators in Outpatient Radiology

large enough to make a
difference, small enough
to care

you'll see **the difference** as soon as
you walk **through the door**

We practice medicine on a human scale. That means taking the time to listen, carefully explaining each procedure and personalizing our service to your needs. Our friendly staff is highly trained, and our facility offers private, comfortable amenities that put everyone at ease. From scheduling to testing to follow-up, we promise individual attention, expert care and convenience.

we can find **the problem...**

The MSNIImaging Center offers a broad range of technologically advanced imaging services.

- Angiography
- Biopsies
- CT/CT Fluoroscopy
 - Bone Densitometry
 - CT-Guided Biopsies
- Mammography (Screening and Diagnostic)
- Open MRI
- Ultrasound
- X-ray

The MSNIImaging Center is a state-of-the-art facility offering advanced radiologic modalities, including angiography and special procedures – all in one convenient location. It's one of a few select facilities nationwide that offers specialized interventional procedures in an ambulatory setting.

If multiple tests are needed, they can all be performed in one location, often in the same visit. In fact, our radiologists work directly with physicians to report results as soon as possible – usually within 2-3 business days.

preparation instructions by exam
